

REMARKS

I. Introduction

Claims 1 and 3-13 are pending. Claims 1 and 3-13 have been rejected as anticipated by Pinkerton, U.S. Patent No. 5,302,874. Claims 7 and 13 have been rejected as being obvious over Pinkerton in view of Koenig, U.S. Patent No. 6,250,577. The Examiner has objected to claims 6 and 12 due to a misspelling. Claims 1, 6, 8, and 12 have been amended. Applicant respectfully submits that all claims are currently in condition for allowance.

II. Rejections to Claims 1 and 3-13

The Examiner has rejected claims 1 and 3-13 under 35 USC § 102(b) as being anticipated by Pinkerton. As noted in the previous response, Pinkerton discloses a "housing with a cylindrical body 12 and annular end walls 14 of non-magnetic material such as aluminum." See, col. 8, lns. 27-29. Pinkerton's "housing" is not a binding band exerting a force on a magnet. Rather, it is merely a container disposed about the assembly in order to enclose it.

To further clarify the invention, claims 1 and 8 have been amended to recite that the annular binding band is engaged with and exerting a preloading force on the annular magnet. As noted above, the cited references fail to disclose or suggest such a binding band. The housing 12 of Pinkerton neither engages the magnets nor exerts a force on them. Claims 3-7 and 9-13 depend from allowable claims 1 and 8 respectively. Accordingly, Applicant respectfully requests the withdrawal of the rejections from all claims.

III. Objections

Claims 6 and 12 have been amended to correct the misspelling.

IV. Conclusion

It is respectfully submitted that a full and complete response has been made to the outstanding Office Action and, as such, there being no other objections or rejections, this application is in condition for allowance, and a notice to this effect is earnestly solicited.
